
Assessment test

Pearson Test of English Academic has been recently approved by the Immigration New Zealand for English language proficiency assessment under all visa categories. With this new development, all applicants will have a choice of Government-approved English language testing options.

This is a computer-based that offers international students and employment seekers a fast, fair and flexible way of proving their language proficiency. "It is critical to be able to prove this skill in a secure and objective environment using the most up-to-date testing method and technology. Pearson's global expertise in English language testing ensures aspirants get access to latest methodology and secure

latest methodology and secure technology.

PTE is already accepted by all universities in New Zealand and this development is a testimony of its highly efficacious testing framework," said Vikas Singh, business head and vice president, Pearson India. It is currently administered in 24 test centres across 17 cities in India. For more details, visit: pearsonpte.com/english-test-india/.
