

Pearson organizes round two of the 'Future of Learning' series in Pune

Pune(Voice News Service):- For the second consecutive year in a row, Pearson, the world's learning company organized an exclusive session – 'Future of Learning' for thought leaders in the education space. Popular schools from Pune like PK International, SNBP International, Global International Indian School, and Phoenix International School etc. were some of the schools present at the series in Pune. Pearson's award-winning flagship product, MyPedia was launched last year with a promise of delivering superior teaching and student performance through enhanced processes and improved application of learning. Technological advancements have opened doors to path-breaking innovation in education. Immersive learning, gamification and mobile learning, design thinking are being used extensively to make learning an enriching experience for students.
