Pearson eLibrary: Put course books within reach—at scale

When learning happens across classrooms, labs, homes, and commutes, access can't depend on a shared shelf. Pearson eLibrary helps institutions make subscribed course eBooks available on the devices students already use—so teaching plans stay on track.

Why institutions choose Pearson eLibrary

4,000+ titles across disciplines—supporting Engineering and Computer Science, Business, Humanities, Science & Maths, and more.

A textbook-like reading experience—a clean layout that stays close to the original pages, helping faculty reference the same content consistently.

Built-in study tools—highlights, bookmarks, and voice notes help learners revise more effectively and come to class better prepared.

Empower classrooms with AI—summarize, explain, translate, and speak content—making teaching more accessible, engaging, and personalized for every learner.

Access that travels with the learner—subscribed eBooks can be opened on mobile, tablet, or desktop, which fits blended and flexible timetables.

Offline reading—downloads help keep study moving even when connectivity is unreliable on campus or at home.

Bring Pearson eLibrary to your campus.

Empower students to love their journey

¹ AI study tool in MLM integrated eTextbooks - Pearson Learning Science data (2026)

More than a textbook

A teaching led digital experience that helps you guide learning, deepen understanding, and track progress with confidence.

More time to teach

LMS synced assignment creation and progress tracking reduce administrative effort, freeing up time for instruction and interaction.

More accountability

Visibility into assigned reading engagement helps you reinforce expectations and keep learning on track.

More engagement

Concept checks, flashcards, audio, and translation tools support comprehension and encourage students to apply ideas independently.

More insight

Clear visibility into learning patterns highlights challenging topics and informs timely, targeted intervention.

More control

Flexible assignments and pacing tools allow you to structure learning in line with your lesson plans and classroom flow.

More support

Built-in AI provides on demand explanations, practice, and summaries —reinforcing your teaching beyond class time.

Take a look

Empower students to love their journey.
